

Andrea Rajšić

Research Scientist

Brown University, Department of Earth, Environmental and Planetary Sciences

Deputy PI, LunaSCOPE NASA SSERVI

Employment History

- 2026 –  **Research Scientist** Brown University, Department of Earth, Environmental and Planetary Sciences, Providence, RI.
-  **Deputy PI LunaSCOPE NASA SSERVI** Brown University, Department of Earth, Environmental and Planetary Sciences, Providence, RI.
- 2024 – 2026  **Postdoctoral Research Associate.** Brown University, Department of Earth, Environmental and Planetary Sciences, Providence, RI.
Advisor: A/Prof Ingrid J. Daubar
- 2022 – 2024  **Postdoctoral Research Associate.** Purdue University, Department of Earth, Atmospheric, and Planetary Sciences, Lafayette, IND.
Advisor: Prof Brandon C. Johnson

Education

- 2022  **Ph.D., Curtin University, Western Australia** in Planetary Science.
Thesis title: *Numerical Modelling of Small Impacts on Mars.*
Advisor: Prof. Katarina Miljković
- 2018  **M.Sc. Belgrade University, Serbia** in Structural Geology and Tectonics.
Thesis title: *Microstructural Analysis of Geological Units on Eastern Slopes of Miroc Mt..*
Advisor: A/Prof Natasa Gerzina
- 2016  **B.Sc. Belgrade University, Serbia** in Geology.
Thesis title: *Structural and Tectonic Analysis of Pirot.*
Advisor: Prof. Branislav Trivić

Research Publications

Journal Articles

Grants and Awards

Funded Proposals

- 2026-2029  **NASA Lunar Data Analysis Program**, Brown University.
Title: "Moon Underground: Using GRAIL and Lunar Craters to Investigate Subsurface"
Role: **PI**
Funding: \$450k
- 2026-2028  **LunaSCOPE NASA SSERVI**, Brown University.
Role: **Deputy PI**
Funding: \$7.5M

Awards

- 2024  **Seal of Excellence by European Commission**, Horizon Europe.
Project: "MESS-Material Exchange in the Solar System" was recognized as a high-quality project proposal in a highly competitive evaluation process but could not receive funding due to budgetary constraints and is therefore recommended by the European Commission for funding by other sources.
- 2023  **Travel Award**, Purdue University.
Travel to Lunar and Planetary Science Conference, LPSC, Houston, TX
Funding: \$300
- 2019  **Travel Award**, Meteoritical Society.
Travel to Large Meteorite Impacts and Planetary Evolution VI Conference, Brasilia, Brazil
Funding: \$900
-  **Best Master Student**, Belgrade University.
- 2016 & 2018  **Young Talent (Dositeja)**, Ministry of Youth and Sports, Republic of Serbia.
Awarded for being in the top 1% students in Serbia
Funding: \$3600/per year
- 2017  **CEEPUS (Central European Exchange Program for University Studies)**
To complete microstructural analysis of samples collected for master thesis at University of Zagreb, Croatia
Funding: \$1000
- 2015  **BAYHOST-Bavarian Academic Center for Central, Eastern, and Southeastern Europe**
Summer School in Bayreuth, Germany
Funding: \$1400

Mission Involvement

- 2018-2022  **NASA InSight on Mars**, Science team member - Impacts Working Group

Invited Talks and Guest Lectures

Invited Talks

- 2026  **AGU Invited Speaker** in the Planetary Impact Cratering Processes (P018)
"Formation of Terrace Zones during Chicxulub Basin Collapse"
-  **AIAA Space Resources Webinar**
"Impact crater here, Impact crater there, and what to do with them"
-  **Brown University, US**
"Shock, Collapse, and Shake: What Impact Craters Tell Us About Planets"
- 2025  **Oxford University, UK**
"Uncovering Planetary Histories Through Impact Craters"
-  **University of Houston, US**
"Uncovering Planetary Histories Through Impact Craters"
- 2024  **Brown University, US**
"Uncovering Lunar History Through Impact Craters"
-  **MIT, US**
"Uncovering Lunar History Through Impact Craters"
-  **Università degli studi di Trieste, Italy**
"Revealing Lunar Surface and Interior Evolution from Impact cratering record"
- 2023  **Stevens Institute of Technology, Hoboken, NJ, US**
"Impact cratering: The most important geological process in the Solar System"
-  **Belgrade University**
"Impact cratering and NASA InSight on Mars"
- 2022  **Purdue University**
"Impact cratering and rock weakening processes"

Guest Lectures

- 2024  **Brown University**
Unit: Earth, Moon and Mars (EEPS 0050)
Unit lead: Prof. Alex Evans
Class: Marsquakes: What did we learn? (total 1h)
- 2023  **Purdue University**
Unit: Impacts (EAPS 591)
Unit lead: Prof. Brandon Johnson
Classes: Studying impact craters; Transient crater scaling; Modification stage (total 5h)
- 2022  **Purdue University**
Unit: Planetary Surface Processes (EAPS556)
Unit leads: Prof. Brandon Johnson and Prof. Briony Horgan
Classes: Crater morphology; Crater dynamics (total 3h)

Teaching & Supervision

Unit lead

- 2025  **Independent Study (EEPS 1940)**, Brown University, Department of Earth, Environmental and Planetary Sciences, Providence, RI.

Teaching Assistant

NOTE: All teaching roles listed below were formal paid employment appointments rather than teaching requirements associated with graduate study. Appointments were part-time in Australia and full-time, competitively applied-for positions in Serbia.

Teaching & Supervision (continued)

- 2019-2021  **Structural geology (GEOL2007)**, Curtin University, Perth, Western Australia.
- 2020-2021  **Geological Field Mapping (GEOL2009)**, Curtin University, Perth, Western Australia.
-  **Geology Virtual Field Experience**, Curtin University, Perth, Western Australia.
-  **Planetary Science Unit (GEOL1007)**, Curtin University, Perth, Western Australia.
- 2017-2018  **Geological mapping**, Belgrade University, Faculty for Mining and Geology, Belgrade, Serbia.
-  **ArcGIS-Applications in Geology**, Belgrade University, Faculty for Mining and Geology, Belgrade, Serbia.
-  **Essentials of Geology**, Belgrade University, Faculty for Mining and Geology, Belgrade, Serbia.
-  **Geomorphology**, Belgrade University, Faculty for Mining and Geology, Belgrade, Serbia.
-  **Structural geology**, Belgrade University, Faculty for Mining and Geology, Belgrade, Serbia.

Postdoc Supervision

- 2026 –  Andrea Bryant, Brown University.
-  Austin Blevins, Brown University.

Grad Student Supervision

- 2024-2026  Carol Hundal, Brown University (Main advisor: Prof. John Mustard).

Undergraduate Student Supervision

- 2026  Skye Rosario, Brown University.
-  Mable Taiwo, Brown University.
-  Walker Milhof, Brown University.
- 2025  Sadie Allspaw, Brown University.
-  Haoyang Xu, Brown University.
- 2024-2025  Sierra Khan, Brown University.
- 2024  Jonah Bernesten-Schalet, Brown University.
- 2020  Callum Bredemeyer, Curtin University.

Leadership

- 2026 –  **NASA SSERVI Tiger Team Co-Lead**, Lunar Seismicity and Tectonics
Leading a Tiger Team within NASA SSERVI to inform NASA ESMD on the current state of knowledge in lunar seismicity and tectonics. Other Co-Lead is Prof. Nick Schmerr from University of Maryland
-  **Vice President GWIS**, Graduate Women in Science
GWIS is empowering women as individuals and as a community since 1921. It has over 1,000 members and many chapters spread across the globe
-  **Deputy PI LunaSCOPE NASA SSERVI**
Leading program of ~30 Co-Is
- 2024-2025  **Programing Lead**
Organizing planetary seminars
- 2021-2022  **ECR representative on NASA InSight team**
maintaing visibility of early career researchers on InSight team

Leadership (continued)

- 2021  **Workshop leader and organizer**, Curtin University
Created, organized, and delivered a workshop on the topic: “Research Culture Initiative: Early career researchers in post-covid World: Survival guide” - Accepted from Curtin University and delivered at several departments

Service to the field

Peer review

Reviewing ~5-10 papers a year for: JGR Planets, Geophysical Research Letters, Science Advances, Nature Communications, Icarus, Planetary Science Journal, Astrophysical Research Letters.

Judge at the Conferences

- 2026  **NESF 2026, Student presentation judge**, oral and poster
 **NESF 2026, Roundtable host**, Issues faced by non-US citizens
- 2023  **Poster presentation judge**, ESE (Ecological Sciences and Engineering Symposium), Purdue University
 **Oral presentation judge**, Purdue Undergraduate Research Conference
 **Dwornik Award Judge**, Lunar and Planetary Science Conference, LPSC, Houston

Conference organization

- 2026  **LunaSCOPE SSERVI Annual Meeting**, Brown University
- 2019 & 2020  **Earth Sciences Student Symposium**, Curtin University, Western Australia
- 2018  **Workshop in Geology and Geophysics of the Solar System**, EUROPLANET

Selected Workshops & Summer Schools

Earth and Planetary Sciences

- 2019  **Field excursion to Vista Alegre and Vargeao Dome Impact Structures**, Large Meteorite Impacts and Planetary Evolution VI, Brazil
- 2018  **Tectonics: Balanced Cross Sections Compact course (MGEO104)**, Friedrich-Schiller University, Jena, Germany
- 2017  **Hands-on GIS for Earth Scientists**, Utrecht University Summer School, Netherlands
 **Short Course in Microtectonics**, Mainz University, Germany
 **Tectonostratigraphy**, CEEPUS, University of Belgrade, Serbia

General

- 2025 & 2026  **NASA Collaboration, Participation, and Coordination: A Focus on Special Restrictions Workshop**, Brown University
- 2025  **Microaggressions and Strategies to Respond**, Brown University
- 2022  **Impostor Syndrome**, Purdue University
 **Mentorship Training**, Purdue University
- 2020  **Mental Health First Aid Training**, Curtin University

Selected outreach activities

Over the past decade, I have participated in a wide range of outreach activities across multiple countries and continents. The examples below highlight selected activities undertaken since graduate school.

Selected outreach activities (continued)

United States

- 2026
 - **Moon Room & Planetarium Show**, designing a special long-term Moon inspired exhibit and planetarium show for Roger Williams Natural History Museum and Planetarium in Providence, RI (with LunaSCOPE and Rhode Island Space Grant)
 - **LunaSCOPE Artist in Residence Program**, supervised artist in residence over the summer. Exhibit planned for the fall semester (2026) at Brown Arts Institute.
 - **Astronomy on Tap Rhode Island**, funding & planetary science representative.
 - **International Observe the Moon Night**, Roger Williams Natural History Museum and Planetarium in Providence, RI
 - **Moon Night Screening**, Movie night and Q&A with lunar scientists at Brown University (with LunaSCOPE, Rhode Island Space Grant and Brown DEEPS)
 - **Moon Day**, Roger Williams Natural History Museum and Planetarium in Providence, RI
- 2025
 - **Public lecture**, Skyscrapers, Inc Seagrave Memorial Observatory, RI
- 2024
 - **RISD Makerspace program**, Scientific advisor and lecturer
 - **Astronomy on Tap Rhode Island**, talk: "Marsquakes: What did we learn"
 - **Waterfire Providence**
 - **International Observe the Moon Night**, Roger Williams Natural History Museum and Planetarium in Providence, RI
 - **International Observe the Moon Night**, Roger Williams Natural History Museum and Planetarium in Providence, RI
- 2023
 - **Astronomy on Tap Lafayette**, talk: "Marsquakes: What did we learn"
- 2022
 - **The Women in Science Program (WISP), Purdue University**, Discussion leader: "Getting the most out of Conferences: Travel Funds, Preparation, and Networking"

Western Australia

- 2021
 - **Science Day at Northam School**, Lecture to year 9 and 10 students
 - **The Innovators' Tea Party**, National Science Week, Perth WA - mentoring girls in STEM fields
- 2020
 - **Open Day, Curtin University**
 - **SPACEApps, Perth, WA** - advising students in pitching research to industry partners
 - **Perth Science Festival**
- 2019
 - **The Innovators' Tea Party**, National Science Week, Perth WA - mentoring girls in STEM fields
 - **ASTROFEST, Curtin University**
